FOR IMMEDIATE RELEASE

Marlow Explorer 66E

Snead Island, Florida – September 21, 2015 (Marlow Yachts Limited, Inc.)

The innovative and enormously successful Marlow Explorer 66E will be on display at the Ft. Lauderdale Boat Show at the Bahia Mar Yachting Center. She is a most remarkable, head turning yacht with new and exciting innovative features and layout from the Marlow Yachts team built in our environmentally green award winning factory. Featuring the nimble handling of a much smaller yacht, with performance at sea proven over and over, this new 66 excels dockside or in a remote cove, providing luxurious and practical surroundings at home on any sea or at any port of call.

Hull #5 sports a beautiful Fighting Lady Yellow hull. She features a very large open fly bridge with twin helm seats where guests are able to join the captain in comfort while relaxing at the comfortable settee under a beautifully styled, designed and built hardtop that appears as one with the boat, rather than the usual “Add On” look so often seen.

The redesigned cockpit features a radius transom with center stairwell along with a center built in dining settee. The area is complimented by the flawless and porcelain like finish of the fiberglass parts and the lovely Burmese Teak floors that provide the worlds finest non skid and a warmth no other material can provide.

Upon entering the salon, one is taken immediately by the absence of outside noise as the vault like doors seal on high technology gasketing. The warmth and coziness that the expansive salon exhumes from Renaissance quality joinery has no modern equal. The stunning ultra leather settee is surrounded by a built-in desk forward and a custom built-in bar just inside the aft doors conveniently located for ease of entertaining both inside or out. The combined staircase and electrical center in one module eliminates one module to allow better sightlines from upper salon/galley to lower main salon while combining all electrical control functions within an Aerospace quality control panel system.

The pilothouse sports a dining area to port of the helm. This arrangement, along with the galley just aft of the helm station allows dinner to be prepared and enjoyed by all while being with the captain during the voyage. Three steps away the beautiful, safe and wide semicircular staircase leads you to the Master, VIP and Twin staterooms.

FOR IMMEDIATE RELEASE

Marlow Explorer 66E

Snead Island, Florida – September 21, 2015 (Marlow Yachts Limited, Inc.)

The additional beam increases volume throughout and increases stability at rest and underway. Her fuel tanks at 3000 gallons are by far leading in class, typically double the industry standard. The engine room is more spacious and is dedicated to engines with generators and other utilities in separate quarters aft. This vessel is capable as equipped from the factory to undertake voyages in distance and weather that few or none can match. West Palm Beach to Newfoundland non-stop causes no concern for this rugged but elegant passagemaker

Come see us at the Ft. Lauderdale Boat Show – Bahia Mar Yachting Center – South end – Dock BC!
