FOR IMMEDIATE RELEASE

Marlow Explorer 49E

Snead Island, Florida – January 3, 2018 (Marlow Yachts Limited, Inc.)

Hull #19 of our very popular Marlow Explorer 49E is a part of the Marlow lineup at the Miami International Boat Show in February on Virginia Key at the Miami Marine Stadium.

The sparkling oyster white hull is a standout with the Command Bridge option and has two staterooms along with a starboard buddy bunk. The spacious master stateroom head and laundry room is full length of the large master stateroom. Aft of the master lies a separate full laundry and utility room with a private engine room entrance door aft.

Her expansive salon features white Ultraleather seating providing for a modern yet cozy and comfortable environment. An exquisite settee forward of the galley provides a pleasant dining area with a view of the world surrounding.

The magnificent engine room in the 49 is a must see. Boasting the largest standup engine room in 58' or under for the entire marine industry, the technology, fit, finish and engineering continues to shout the Marlow quality and imagination with superlative design and build expertise throughout.

We invite you to personally experience the high standards of quality with sparkling performance built in to our newest model, the Marlow Explorer 49E.

Please visit us at our display at the Miami Boat Show on Pier 8 at the Miami Marine Stadium on Virginia Key.
