FOR IMMEDIATE RELEASE

Marlow Explorer 62E

Snead Island, Florida – September 20, 2018 (Marlow Yachts Limited, Inc.)

Hull #16 of our Marlow Explorer 62E series will be a part of our Ft. Lauderdale Boat Show lineup. Built in our own Green Environmental Boat Factory she is in route with other Marlows where she will be standing tall for all to tour at the 2018 Fort Lauderdale Show.

A Command Bridge model; her glistening flag blue hull will wow all who are fortunate to view finish levels achieved by perhaps only two-three other builders in the world today. Featuring three large staterooms and crew quarters displaying the quality and innovation Marlow yachts are known for with expansive Command Bridge allowing family and guests to keep the navigator company while underway by relaxing at the large built in settee or in one of the twin ultra-leather helm seats. A spacious Command Control center lies before the skipper in artistic layout for logical operation. Aft leads to the upper deck where an outdoor dining area allows sundown cocktails, canapes or elegant meals. A large day head lies on the same level for convenience. Comfort and luxury with elegance recalling the renaissance period hallmarks of a Marlow Yacht.

Her radius transom design is stylish and increases lazarette space by 30%. The large full standup engine room and lazarette is a standard luxury in all Marlow Yachts from 49' to over 100'.

Whether your “Lifestyle” is weekends or long-distance cruising, life aboard a Marlow is superb. From unique storage solutions to easy maintenance of our finishes and systems, our yachts are thoroughly designed and built to make your cruising experience most enjoyable and memorable.
