

Press Release 2019

FOR IMMEDIATE RELEASE

Marlow Prowler 375 Havana

Snead Island, Florida – January 11, 2019 (Marlow Yachts Limited, Inc.)

Marlow Yachts is pleased to announce the Marlow Prowler, Havana model will be on display at the 2019 Miami International Boat Show on Virginia Key at the Miami Marine Stadium.

At first glance, the eye will view a beautiful but classically styled center console open fisherman. However, this new design boasts a larger console than our 2010 debut model and outboard power adding to the builders design options. Full standing headroom in the stateroom and approach to it makes this a unique feature not normally seen in center console vessels. A full size head with shower, natural lighting and ventilation with over six feet of headroom provides comfort aboard. Large vee berths and storage lockers rounds out the style and comfort in the below deck accommodations.

Crafted by skilled craftsmen in our environmentally green manufacturing facility in Xiamen, China, the same factory and under the same precise standards as our Marlow Explorers, she will be described as unforgettable once you have been aboard. The beautiful hand crafted teak cockpit sole provides nature's best non-skid and lasting beauty.

Traveling from Key West to Havana, several times, is not an issue due to the large fuel tanks and liquid capacities. With a draft of just under 2' and equipped with high performance triple Yamaha 300 HP outboards, all waterways including Bay, Gulf and Ocean is within reach for your fishing excursion and getting to your destination quickly is possible with speeds up to 40 knots. She is a legacy of adventure!

The Havana model joins the Marlow Prowler Classic series. All are built with our proprietary Full Stack Infusion© process and are built alongside our world class Marlow Explorer and Marlow Voyager yachts.

Marlow Yachts, Never out of style.

We look forward to welcoming you at our display at the Miami Boat Show on Pier 8 at the Miami Marine Stadium on Virginia Key.
