

## PressRelease2020

### **FOR IMMEDIATE RELEASE**

#### **Marlow Explorer 58E**

**Snead Island, Florida – February 5, 2020 (Marlow Yachts Limited, Inc.)**

Fresh from our environmentally green factory in Xiamen, China is our head turning Marlow Explorer 58E Hull #15. Showcasing her classic Flag Blue hull and extended open flybridge, she will be featured at this year's Miami Yacht Show at Sea Isle Marina. Hull #15 of the 58E series is the first Marlow Explorer to include a Beach Club with extended lazarette and option to include a berth and head for added comfort or the occasional crew, making an already spacious area even larger, and providing ample and easy access to storage through the oversized transom door for ease of loading and unloading toys.

This nimble 58E is a 3-stateroom yacht with Burmese Teak interior throughout. With a full beam master stateroom including his and hers heads and a shared oversized shower, comfort and luxury go hand in hand. Proud owners and honored guests do not compromise their desired lifestyle with this outstanding spatial engineering.

The large full standup engine room with 360-degree access is equipped with Twin CAT C18 ACERT 1150HP engines, offering an easy 20+ knot cruising speed and top speeds at 28 knots. There will be no hands and knees crawling or crouching in these engine rooms gleaming with the very best materials available.

Navigate this vessel from either the lower helm in the pilothouse or the upper helm in the open flybridge, both spaces offering state of the art Garmin electronics. Aft of the open flybridge is a barbeque cabinet and a subzero fridge for your entertainment and dining enjoyment during the day or night. The owner of this exquisite Marlow plans to navigate her from Florida to their home on the Great Lakes while enjoying all of these amenities she has to offer.
