

Marlow Prowler Havana

Quality, Versatility, Performance, Value

Classic elegance built with the latest technology.

"Our advanced manufacturing techniques and over a decade of experience of building Marlow Explorers from 49' to 97' has provided us the ability to offer unparalleled quality in this class of vessel." - David Marlow

The Prowler Havana provides the quality and classic styling Marlow yachts is famous for in a dayboat. The Havana's hull form provides unsurpassed stability and the ability to get on plane at under 20 knots. She can be fished during the day and is a great yacht to go to dinner at the club in at night. The Havana offers style and grace not usually found in this type of vessel. Each one is built to order in the state of the art Norstman factory where the Marlow Explorer's are built. Many options are available from custom interiors, different engine packages, and custom electronics and entertainment systems.

Performance

Hull shape provides excellent stability-much more stable than a deep V fishing boat hull. She is fast, but will plane at 18-20 knots allowing you to cruise at moderate of boat speeds.

- Twice or triple outboards
- Cruise at 30-40+ Knots
- Shallow draft, very stable
- Built to order—Highly customizable
